Data Management Committee (DMC)

Roles and Responsibilities

Roles	Members	Responsibilities
Data Management Committee (nyp-dmc@nyp.edu.sg)	CIO, CISO, CDO, CNC Directorate (+ Data Owner)	1) Provides a platform for data harmonisation or resolution, and supports data governance efforts with focus on compliance, data quality and data classification, to ensure proper translation, contextualisation and implementation of strategies, initiatives and policies decided at the IDSC. 2) The process could be initiated by CDO, CIO or any Data Owner, as and when the need arises. A discussion among relevant parties should be conducted with the objective to reach mutual consent based on generic principles such as adherence to SG-DRM standard and to minimize duplication. 3) The resolution chosen should take into considerations such as impact, in terms of cost, effort and long-term sustainability issues.
